PRESIDENT'S CORNER

"Da Prez Sez"

Wow October is here. Some great flying days this past month and even an impromptu night fly. By the time this reaches everyone, the Lake Float Fly will also be in the books. Big thank you to Mary and Gary for opening their lake house for last weekend's event. Re-reading June's Model Aviation, "Sky's The Limit" – it had some great tips. How about sharing some of yours? 1) Flying into the sun close one eye so when you fly out you can switch and have one good eye to see your plane. 2) When the plane is coming toward you always move the aileron stick towards the low wing to level the flight. 3) Always wear dark pants for those spectacular OH..... moments. (Bad I Know)
Happy Flying Everyone - Doug

Coming Events

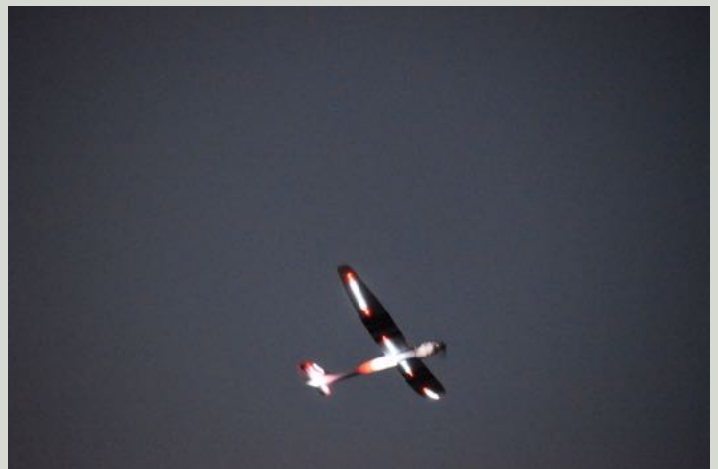

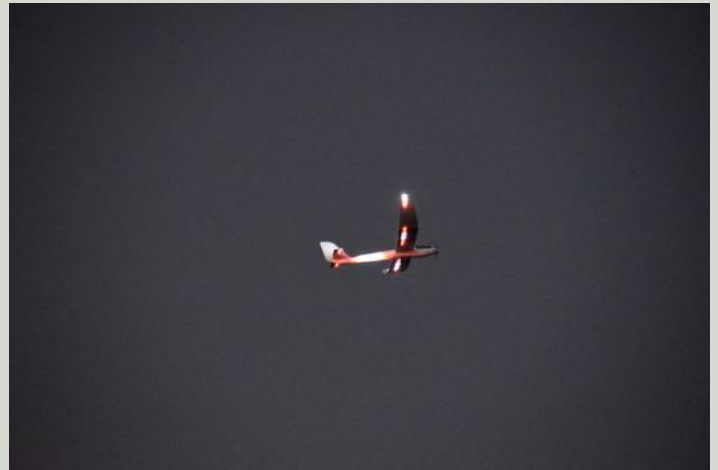

1.
2.

- 1. Next Meeting 2 October 10:00am at Waterman Field.
- 2. Officer nominations open at the October meeting.
- 3. Dues are payable to the Club Treasurer.
- 4. Field work Party 23 October starts @ 0800

Night Fly

by Don McClelland

On Tuesday Sept 21st we had an impromptu Nite-Fly at our field. A quick text at dinner time was received and a few members showed up at the field ready to fly. The night was calm and dark. Planes that were flown were Hobby King Night Walrus, E-Flite Night Radian and Hobby King FlyBeam. We were kind of unprepared and didn't think about landing lights so bringing the planes home to a dark runway was a little on the tricky side but all planes survived. We are trying to find a better way to contact members on very short notice. We should probably discuss this at the next meeting.

MINUTES

Minutes from the September 2021 Club Meeting

Called the meeting to order at 10:00.

7 Members present

Pledge of Allegiance

Minutes: Accepted as published.

Treasurer's Report: Accepted as presented.
